

Quarterly Update Guide

Framework for Maintaining Compliance Between Surveys

Product: Ambulatory Surgery Center Compliance Manual — Tier 2
Version: 1.0
Applicable Standards: CMS Conditions for Coverage (42 CFR Part 416), AAAHC Standards, State Requirements

Purpose

Accreditation surveys happen every 3 years. The 1,095 days between surveys are where compliance either thrives or erodes. This guide provides a structured quarterly framework to ensure your ASC maintains survey-readiness every day — not just the week before surveyors arrive.

For Small Teams: This guide is designed to take 4-6 hours per quarter to complete. That’s roughly 90 minutes per month dedicated to proactive compliance maintenance. Schedule it. Protect it. Your Medicare certification depends on it.

Quarterly Cycle Overview

Quarter	Focus Theme	Self-Audit Focus	Key Deliverables
Q1 (Jan–Mar)	Infection Control & Safety	IC program, sterilization, environment	IC risk assessment update, fire drill, OSHA review
Q2 (Apr–Jun)	Clinical Operations & Records	Surgical services, medical records, medications	Chart audit, medication audit, credential file review
Q3 (Jul–Sep)	Staff & Quality	Training, QAPI, peer review	Training gap closure, QAPI project review, competency validation

Quick-Start: First Quarterly Cycle

If you're implementing this framework for the first time, start here:

Week 1: Setup (2 hours)

1. Print this guide and the Survey Readiness Checklist
2. Determine which quarter you're currently in
3. Block 90 minutes per month on your calendar for the next 12 months ("Compliance Review — DO NOT RESCHEDULE")
4. Identify who owns each deliverable (it may be the same 1-2 people — that's OK)

Week 2: Baseline (3 hours)

1. Complete the self-audit checklist for your current quarter
2. Score each item honestly — the first quarter will likely have gaps; that's the point
3. Document findings in the dashboard

Week 3: Action Plan (2 hours)

1. Prioritize findings: 🚨 immediate jeopardy items first, then ❌ non-compliant, then ⚠️ partial
2. Create a corrective action plan for each finding (who, what, when)
3. Start working on the top 3 issues immediately

Week 4: Report & Communicate (1 hour)

1. Complete the quarterly dashboard
2. Present findings to your administrator / governing body at the next meeting

- 3. File documentation in your compliance binder
- 4. Start monitoring progress on corrective actions

Ongoing (30 minutes/week)

- 1. Check for regulatory updates (scan ASC Association newsletter, CMS updates)
- 2. Verify daily/weekly logs are being maintained (temperatures, generator, sterilizer BI)
- 3. Follow up on open corrective actions
